Subseries with Records in Progress:

- Department of Environmental Conservation, Oil Spill Response Center Damage Assessment Processing Group Digitized Exxon Valdez Oil Spill Maps
Questions about Records?
EVOS Slides

- NOT part of EVOS litigation project.
- 2000 slides, 500 digitized
EVOS Slides: The Players

- Generous Researcher
- Larry
- Me
- Sara Bornstein
Phase 1: The Predigitized

- Slide researcher donated about 250 jpg files he had digitized from the collection.
- Conversations between staff of Archives, TIS and Historical Collections finalized desired metadata.
- Photos and metadata were uploaded to Alaska’s Digital Archives.
- An hour a day for about a month.
Aerial of a maxi-arge with water tanks and spill workers hosing a beach.
Collection Name: Exxon Valdez Oil Spill Slide Collection, RG 348

Record Group: RG 348 Press Secretary SR 612 Public Information Files AS17950 EVOS slides

Identifier: ASA-RG348-SR612-AS17950-0706.jpg

Rating: ★★★★★ Based on 0 rating(s)
Phase 2: Original Scanning

• Archives staff selected another 250 slides for scanning.
  – Main criteria was avoiding duplicating Phase 1 slides.
• PowerSlide 5000 was ordered. 50 slide capacity. Nikon out of slide scanning.
• Scanning mostly went well, but sticking sometimes mean 3 or 4 slides had to be redone.
Phase 2: Continued

- Sara moved from scanning to uploading to Alaska’s Digital Archives.
- Scanned at 4000 dpi
- Scanning, describing and uploading took about another month.
