Why we’re here

- I recall information about the effects of climate change on health on CDC’s website. I want to see if it has changed with the new administration.

- I want to look at the Climate Action Leadership Team’s recommended climate action plan but I can’t find it on the state website anymore.

- I am researching public discourse about September 11, 2001 and want to see websites from that time.

- The AkLA conference registration site home page was just edited. What did it look like a few days ago?
Some tools

- Wayback Machine
- Internet Archive
- Other web archives
- Momento Time Travel & Old Web Today
- Google cached pages
How web archiving works

- Harvest metadata and files required to reproduce the page
- Take a snapshot of a web page
- Scrape data from a page
- Software enabling people to access the archived site, page snapshot, or data
Wayback Machine

Internet Archive

1996+

Works best by entering URL or portion of it

Limited full text search

https://archive.org/web/
Wayback Machine - Need to know

- May not capture all parts of a page or the files linked from it
- Respects robots.txt files
- Difficult to search - works best if have URL
What’s in **Archive-it?**

- **FDLP web archives** – FDLP harvests selected US Government Web sites
- **Flint Water Crisis Website Archives** – Michigan State University
- **Climate Change and Environmental Policy** – Stanford University Social Sciences Resource Group
- **Alaska State Government websites** - Alaska State Library
Alaska State Library

Archive IT Partner since: May, 2006
Organization Type: State Archives & Libraries
Organization URL: http://library.alaska.gov

Description: The Alaska State Library promotes and coordinates library services to the community of Alaska's libraries, serves as the primary research library for state government, and collects, preserves, and makes accessible Alaska-related materials, including State of Alaska publications.

Narrow Your Results
